Prompts — Lab 09: The Lead Magnet: a Checklist and Its Welcome Emails

Claude AI for Digital Marketing · Day 2 · Use Claude Code

Use: Claude Code — Code mode (the </> button) in the Claude desktop app, in your horizon-studio folder. Paste each prompt as written; change only what the lab tells you to.

Easiest: copy each prompt from https://tertiarycourses.github.io/C141-Claude-AI-for-Digital-Marketing/prompts/claude/#lab-9 (one Copy button per prompt).

PROMPT A — Claude Code: the checklist

```
Use the lead-magnet skill. Turn
data/checklist-items.md into the "Money Check-up
Checklist": a title with one promise, the ten items
as tick boxes, one figure from data/facts-2026.md,
the next step (book a free chat) and the full
disclaimer. Lay it out as a printable A4 page in
the colours and fonts in data/brand.md and publish
it as an artifact. Save a PDF of it in
content/lead-magnet/.
Write for a business owner, in plain English: no
codes, IDs, file names or line numbers; start with
what it means and what I do next. Save a Word copy
(.docx) of each result.
```

PROMPT B — Claude Code: the welcome emails

```
Use the Marketing plugin's email sequence to write
three welcome emails for people who download the
checklist: day 0 (here it is), day 3 (the item most
people miss — the retirement number), day 7 (book a
free chat). Follow the newsletter and sunny-voice
skills → content/email/welcome-sequence.md.
Then, using the Gmail connector, create the
three emails as DRAFTS in my Gmail, addressed to
me. Send nothing.
Publish the three emails as an artifact: one tab per
email, laid out as it will look in the inbox.
Write for a business owner, in plain English: no
codes, IDs, file names or line numbers; start with
what it means and what I do next. Save a Word copy
(.docx) of each result.
```

PROMPT C — Claude Code: check it

```
Run fact-check and fin-compliance on the checklist
text and the three emails. Show the issues in one
table, with a fix for each. Once I agree, make the
fixes in the files and in the Gmail drafts.
Publish the table as an artifact, coloured by
severity.
Write for a business owner, in plain English: no
codes, IDs, file names or line numbers; start with
what it means and what I do next. Save a Word copy
(.docx) of each result.
```

PROMPT D — Claude Code: put it on the website

```
Add the checked Money Check-up Checklist to
Horizon's website in web/site/index.html, as a new
section before the reviews, in the site's style:
the title and promise, what's inside, and an email
box with a required consent tick box. Once a valid
email is entered, show the ten items as tick boxes
and a "Print or save as PDF" button. Add "Free
checklist" to the menu. Change nothing else on the
site. Then start my website if it is not running,
and open it.
```

Ask about the result

Once a result opens, type any of these in the chat to get its meaning. Ask until it makes sense to you — then decide.

- "Which checklist item do people most often miss, and why does it matter?"
- "Read the day 3 email as a 55-year-old. Is anything unclear?"
- "Explain each issue in one line: what is wrong, and the fix."
