Lab 13 — Campaign 5: Always On — the Weekly Growth Report

Claude AI for Digital Marketing · Day 2 · Use Claude Code

> **USE: CLAUDE CODE** — Code mode (the </> button) in the Claude desktop app, in your horizon-studio folder

Course: Claude AI for Digital Marketing (C141)

Day 2 · Topic 3 · about 45 minutes · slides 144–149

Surface: Claude Code (skill, routine, Drive, Gmail)

Features: the Growth Analyst's campaign-report skill · do · verify · schedule · draft-only delivery

> **Copy the prompts:** https://tertiarycourses.github.io/C141-Claude-AI-for-Digital-Marketing/prompts/claude/#lab-13 — click **Copy** next to each prompt, then paste it into the chat.

The story so far

The team must keep working after class. Rachel wants the Growth Analyst's report in her inbox every Monday — as a draft she decides on.

Your goal

The team should keep working when class ends. Every Monday the Growth Analyst's report lands in Rachel's inbox as a draft — the decision stays with a person.

You'll build

a scheduled task that drafts the weekly growth report every Monday at 8am, and one draft in Gmail

What is in this folder

> **.md or .pdf?** A `.md` file (Markdown) is plain text that Claude reads. Every `.md` here has a `.pdf` twin with the same name — open the PDF to read it yourself.

- `assets/campaign-results.csv`
- `assets/weekly-report-brief.md`
- `assets/scheduled-task-instructions.md`
- `prompts.md` / `prompts.pdf` — every prompt, ready to paste
- `evidence/checklist.md` / `checklist.pdf` — what to capture as proof

Step by step

1. **New session** — Left sidebar: click + next to horizon-studio. Click the session title at the top and rename it "Lab 13". Run all of this lab's prompts in it.
2. **Do it once** — Copy and paste Prompt A. Refine the report until it is right.
3. **Schedule it** — After the report is right, copy and paste Prompt B into the instructions of a new routine: Routines → New routine → Local, Mondays at 8am.
4. **Run it now** — Click Run now once, approve any permission prompts, then open the Gmail draft.
5. **Pause it** — After class, pause the routine.

The prompts

PROMPT A — Claude Code: do it once

> Act as Horizon's Growth Analyst. Using Google Drive, read campaign-results.csv in the Horizon Studio folder. Use the campaign-report skill and data/weekly-report-brief.md. Leave the report as a Gmail DRAFT to me, subject "Horizon weekly growth report" and today's date. Send nothing.
> Also publish the report as an artifact: cost per chat by channel as a chart, and the budget split.
> Write for a business owner, in plain English: no codes, IDs, file names or line numbers; start with what it means and what I do next. Save a Word copy (.docx) of each result.

PROMPT B — Claude Code: the routine

> Run the campaign-report skill as Horizon's Growth Analyst. Read campaign-results.csv in the Horizon Studio folder on Google Drive and follow weekly-report-brief.md. Leave the report as a draft email to me in Gmail with the subject "Horizon weekly growth report" and today's date. Do not send it, and do not publish or approve anything.

Ask about the result

Once a result opens, type any of these in the chat to get its meaning. Ask until it makes sense to you — then decide.

- "What is the one decision this report asks me to make?"
- "Which channel gets us a chat most cheaply, and how sure are you?"
- "What would you change in next month's budget, and why?"

Check your work

- ☐ The report used the campaign-report skill from your folder.
- ☐ The report names the cheapest channel per chat (the newsletter).

- ☐ It recommends a budget split with a reason per channel.
- ☐ A scheduled task runs Mondays at 8am with draft-only instructions.
- ☐ A manual run left a draft — nothing was sent.
- ☐ The task is paused after class.

If it goes wrong

- **It sent the email** — Write "draft only — never send" in both the skill and the task instructions.
- **campaign-results.csv is not on Drive** — It went to the Horizon Studio folder in Lab 4. Open drive.google.com, open Horizon Studio → New → File upload, and choose it from your data/ folder.

Stretch

- Add a Friday 5pm task from the Lead: what was published and what is still pending.

> **Why it matters:** Automate the preparation, not the decision. The schedule fills an inbox; a person still decides.

Next

Lab 14 — Measure, Version and Write the Team Playbook. Keep what you built — the next lab starts from it.

Safety

Use only this lab's synthetic data and your own accounts. Never paste a real API key, password, token or client data into a prompt or a file. Every email address in the data must resolve to your own inbox. Nothing is published or sent without a person approving that exact version.
